MEMORANDUM TO: Chief, Historical Staff, O/DCI

SUBJECT : Major Histories in Process and Planned in the DDP\*

The list which follows includes the person(s) responsible for preparing each history. On most of these many officers are being debriefed or on request contribute supporting reports. The years listed are broad approximations since deadlines are not set. Some writers are working part time and some full time; others have been given special assignments of higher priority. Some of these chroniclers have been sent overseas on TDYs; others have been transferred PCS to stations overseas and their historical papers have come to a halt. However, I consider this list to be within reason. It does not include the writers of the numerous historical monographs with whom I have been working, whose papers fall outside of the category of major histories as delineated herein.

\*A major history for the purpose of this submission is a definitive chronicle of the clandestine services covering the period 1 October 1945 to 1965 or a designated part thereof. It may treat a country, branch or major field of responsibility of a DDP division or staff or cover the division or staff overall.

\*\*A "planned" history is one which has been discussed with the division or staff chief and/or his Responsible Historical Officer, the future chronicler has been selected, the chronicler has discussed the history with the DDP Representative, Historical Staff and has agreed to write the historical paper.
